- **I am no longer employed by ATP-Bio as of May 10, 2024**
- **I remain a strong supporter of**
 - **The NSF ERC program**
 - **ATP-Bio**
 - **The ATP-Bio participating Universities**
 - **The ATP-Bio Innovation Ecosystem**
- **The views and opinions expressed in this presentation are solely my own and do not necessarily reflect the official policy or position of any other agency, organization, employer, or company.**

Enhanced Research Relevance: Non-profit organizations can be well connected to communities and understand their needs, ensuring that research addresses real-world problems and has practical applications.

ATP-Bio Organ procurement organizations

Diverse Perspectives: Engaging non-profits brings diverse perspectives to the research process, fostering innovation and comprehensive problem-solving by considering varied stakeholder viewpoints.

ATP-Bio Museums

Increased Funding Opportunities: Non-profits can be sources of funding or help attract additional funding from other stakeholders, supporting the financial sustainability of research projects.

SBIR/STTR 101: An Overview of America's Seed Fund

Catalyst Program

Students, Researchers, Member Partners

Moving Technology from the Bench to the Marketplace

- Webinar series on SBIR and start-ups
 - Broad education on the concepts
- Connected with two of our faculty on SBIR/STTR writing
 - Resulted in a submission
- Consulted with two of our member partners
 - Turned them to supplements
